Professional Summary

Frontend Engineer with 3+ years of experience building scalable and performant web applications using Angular, JavaScript, and TypeScript. Led development of reusable UI components and optimized performance across critical workflows. Strong in DSA, modern frontend architecture, and agile methodologies. Proactive contributor to cross-functional teams driving engineering excellence.

Technical Skills

Programming Languages: JavaScript, TypeScript, HTML5, CSS3, C++, Java
Frontend Technologies: Angular 12+, Bootstrap, Material-UI, Micro Frontend, Responsive Web Design
Backend Technologies: Spring Boot, RESTful APIs
Database Management: SQL, Mongo DB, DBMS
Development Tools: Git, Azure DevOps, VS Code
Testing & Quality: Unit Testing, Code Review, Debugging, Troubleshooting
Methodologies: Agile, Scrum, Kanban, Team Collaboration
Problem Solving: Data Structures and Algorithms, System Design

Professional Experience

- Specialist Programmer (Angular - TypeScript)** August 2022 – Present
Infosys Ltd. Bangalore, Karnataka, India
 - Led frontend development for the Provider Life Cycle Management module on the Infosys Helix platform, boosting onboarding efficiency for healthcare clients.
 - Engineered high-performance UI components using Angular (v12+), reducing redundant development by 40% through reusable libraries.
 - Enhanced application performance by 30% by implementing techniques like parallel API calls, lazy loading, debouncing, and caching.
 - Integrated advanced features like SmartyStreets (address verification), Geospatial Maps, and dynamic charts to elevate user experience.
 - Implemented robust error handling and fail-safe fallback mechanisms to maintain application stability during edge-case failures.
 - Leveraged data structures and advanced Angular features like RxJS, reactive forms, authentication, and build optimization to implement efficient and scalable solutions for complex business logic.
 - Automated Angular testing workflows using GitHub Copilot, reducing manual QA effort by 30%.
 - Collaborated directly with clients and product owners to translate business requirements into robust, scalable front-end solutions, ensuring zero-defect delivery.
 - Mentored junior developers and played a key role in sprint planning, grooming sessions, and retrospectives.
- Research and Development Intern (Java - Spring Boot)** November 2021 – May 2022
Keysight Technologies Kolkata, West Bengal, India
 - Gained hands-on experience in backend development using Java, Spring Boot and REST APIs.
 - Assisted in debugging, unit testing, and code reviews in a professional R&D setup.

Key Projects

- Ekart E-Commerce Application** *Angular, TypeScript, Bootstrap, HTML, CSS*
- Developed a fully responsive frontend for an e-commerce platform with key modules including Login, Signup, Cart, Wishlist, and Checkout.
 - Improved user experience and load performance by implementing lazy loading and optimizing API calls.

Education

Bachelor of Technology in Electronics and Communication Engineering June 2022
Techno Main Salt Lake, Kolkata, WB, India *CGPA: 9.23/10.0*
Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Software Engineering, Web Technologies

Awards & Certifications

- Infosys Rise Badge** - Recognized for excellent performance in frontend development and client satisfaction.
- Infosys Helix Certification** - Recognized for exceptional performance and significant role in success of Infosys Helix.
- Infosys Make-a-thon Finalist (x2)** - Recognized for innovation and collaboration in internal hackathons.
- Problem Solving Excellence** - Solved 900+ DSA problems across LeetCode, GeeksForGeeks platforms.
- AWS Cloud Practitioner Certified** - Acquired foundational understanding of cloud services and architecture.
- Technology Workshops** - Completed sessions on Generative AI, GitHub Copilot, AWS, MongoDB, and Node.js to broaden technical proficiency.
